Once you have your image edited the way you want it please prepare it in the following manner:

1. In Photoshop click on the Image > Image size > tick Constrain Proportions and under Pixel Dimensions enter a width of 1400 (if it's Landscape) or 1050 (if it's Portrait) > OK (When using Microsoft Paint Click Resize).
2. If using a stroke line to make a border, put the stroke line on then resize the image again to ensure the pixels have not been added on. As a precaution make original 5 pixels smaller at 1.
3. Layers should be flattened and Save As a **jpeg** file with Maximum (12) quality setting.
Note: On Apple computers file name must end in **.jpeg**

Save file as per this example :- **Your Name--Image Title.JPG**

ie, your name (no spaces) 2 dashes, (no spaces) your chosen image name

(This format is required to make your PDI image compatible with our competition software being used on our laptop).

Please put this form with your CD/DVD or Flash drive, If emailing send the information requested above with file attached to: pdi@haylingislandcameraclub.co.uk

****LATE SUBMISSIONS WILL NOT BE ACCEPTED****
